NOTICE OF PRIVACY PRACTICES

Effective Date: 4/2026

OVERVIEW

This Notice describes how Neuro Revolt Psychiatry may use and disclose your Protected Health Information (PHI) and your rights regarding that information under HIPAA and Nevada law. We are committed to safeguarding your privacy, particularly given the sensitive nature of psychiatric care.

USES AND DISCLOSURES

We may use and disclose your PHI for treatment, payment, and healthcare operations. This includes coordination with providers, pharmacies, laboratories, insurers, and third-party vendors such as electronic health records, billing platforms, and secure communication tools.

MENTAL HEALTH PROTECTIONS

Mental health records are afforded additional protections. Psychotherapy notes are maintained separately when applicable and require authorization for disclosure except in limited circumstances such as emergencies, legal requirements, or risk of harm.

AI AND DOCUMENTATION TOOLS

We may use AI-supported tools and digital scribes to assist with documentation and operations. These tools enhance efficiency and accuracy but do not replace clinical judgment. All vendors are required to comply with privacy and security standards.

TELEHEALTH AND COMMUNICATION

We utilize telehealth and electronic communications. While safeguards are in place, these methods carry inherent risks. Patients are encouraged to use secure channels and avoid using unsecured communication for urgent concerns.

PHONE RECORDING

Phone calls and voicemails may be recorded or documented for quality, training, and care continuity. By communicating with our office, you acknowledge and consent to these practices in accordance with applicable laws.

LEGAL DISCLOSURES

We may disclose PHI when required by law, including court orders, reporting obligations, and to prevent serious threats to health or safety.

YOUR RIGHTS

You have the right to access, amend, and restrict your information, request confidential communications, receive an accounting of disclosures, and file complaints without retaliation.
